Regulatory Compliance - India >>

Once an investor sets-up a business in India, whether it is a liaison office, project office, branch office or company, that business needs to comply with Indian regulations. In this note we will discuss the recurring compliances that affect day to day business. Within each compliance activity, we have indicated the applicability to the business entity i.e. CO for a Company, LO for a Liaison Office, etc.

1 ACCOUNTING & PAYROLL

1.1 Accounting

All businesses in India need to maintain accounting records that meet the Indian Generally Accepted Accounting Policies. A business entity is free to decide their accounting year as financial, calendar or otherwise to match their global reporting norms. However, under the Indian income tax laws it is mandatory to close the books of accounts on a financial year basis i.e. April 1 to March 31.

1.2 Employee Payroll

Businesses need to draft appropriate employment contracts keeping in view the income tax laws and employment regulations. In terms of compliance, they are required to pay monthly salary, generate pay slips and ensure regulatory compliances under labour laws. Furthermore, salaries are structured at the time of set-up, revision or when there is an amendment in the law. Once the New Labour Codes takes effect, the payroll structures will have to be relooked at.

2.2 Tax Audit

Businesses with an annual turnover exceeding INR 10 million (USD 150,000 approx) need to additionally have accounts audited under specific provisions of the Indian income tax laws and certified by an Indian firm of chartered accountants. To ease the burden of small businesses, tax audit limit was raised to 100 Million subject to the condition that at least 95% of sales, turnover or gross receipts must be through banking and/or digital mode. However, subject to prescribed conditions, requirement of audit is triggered if annual turnover exceeds Rs 100 Million.

2.3 Internal Audit

Private Companies exceeding a turnover INR 2 billion (USD 31 millions approx) or outstanding borrowings of INR 1 billion (USD 15 million approx), need to have an internal audit system in place, either outsourced to an Indian firm of chartered accountants or through their in-house team, the latter being prevalent in case of large corporates.

CO

3 DIRECT TAX

3.1 Corporate Tax

Businesses need to determine their annual tax payment and ensure its deposit under an instalment plan commonly referred to as Advance Tax. Delays, deferment or incorrect calculations attract penal provisions. At the year end, an annual return together with audited accounts and tax audit report must be submitted e.g. in case of Financial Year 2020-21, advance taxes have to be deposited by June 15 (15%), September 15 (45%), December 15th (75%) and March 15 (100%). The Annual Return for this year is to be submitted by September 30, 2019 / November 30, October 31, 2021 / November 30, 2021

Businesses having TP team (Transfer Pricing team within tax team) will let you know cross border dealings with related concerns fall within ambit of Indian Transfer Pricing regulations. This requires the maintenance of documentation and certification by an Indian firm of chartered accountants confirming that the firm's dealings with related concern were at an arm's length, and the profits were appropriately reported by the Indian business entity.
